

Iron + Folic Acid + Vitamin B12 + Vitamin C

BLACKCURRANT FLAVOUR
EFFERVESCENT TABLETS

Take daily to manage iron levels in the body and support energy production when the dietary intake is inadequate.

Potential Claims*

- Prevent dietary iron deficiency
- Assists in red blood cell production
- Plus B and C vitamins to support absorption and utilisation of iron

Effervescent Tablets Features & Benefits

- Wide range of natural flavours & colours with your preferred sweeteners
- Effervescent tablets produce a nice fizzy flavour and are pleasant to drink often resulting in compliance or repeat usage
- A great dosage form for people who find oral tablets difficult to swallow (dysphagia)
- Popular with kids, adults and seniors
- Effervescent tablets have already started dissolving by the time they reach your stomach, meaning they can be absorbed efficiently and are gentle on the stomach
- High dose of Active Ingredients is possible due to large tablet sizes
