

Vitamin C + Glutathione + Vitamin E

ORANGE FLAVOUR
EFFERVESCENT TABLETS

Taken daily this formulation can visibly reduce the signs of sun damage and pigmentation on the skin and provide an overall skin brightening effect. Vitamin C is a powerful antioxidant and can help fade skin discoloration. Glutathione can reduce minor skin imperfections and produce an overall brighter complexion while improving uneven skin tone. Vitamin E is a fat-soluble, essential nutrient with anti-inflammatory properties and also helps support cell function, and skin health.

Potential Claims*

- Vitamin C is essential in the formation of collagen which is the building block of skin
- Glutathione is the most abundant antioxidant in the body. It reduces oxidative stress in the body to improve your overall complexion. It decreases the melanin (pigmentation) in your skin, but has also been found to decrease wrinkles and increase skin elasticity.
- Vitamin E is a powerful antioxidant that may be effective at reducing UV damage in skin and aging.

Effervescent Tablets Features & Benefits

- Wide range of natural flavours & colours with your preferred sweeteners
- Effervescent tablets produce a nice fizzy flavour and are pleasant to drink often resulting in compliance or repeat usage
- A great dosage form for people who find oral tablets difficult to swallow (dysphagia)
- Popular with kids, adults and seniors
- Effervescent tablets have already started dissolving by the time they reach your stomach, meaning they can be absorbed efficiently and are gentle on the stomach
- High dose of Active Ingredients is possible due to large tablet sizes

* These claims are general in nature and have not been assessed according to specific regulatory requirements.
