

Vitamin C + Zinc + Rosehip

ORANGE FLAVOUR
EFFERVESCENT TABLETS

Take daily to boost immune system health and reduce the severity and duration of common cold & flu symptoms. A unique feature of this formulation is the addition of Rose hips. Rose hip extract is made from the part of the rose flower just below the petals that contains the rose plant seeds. It naturally contains Vitamin C and antioxidants like polyphenols and anthocyanins.

Potential Claims*

- Vitamin C and Zinc are antioxidants that help reduce free radicals formed in the body
- Rosehips extract is high in antioxidants like vitamin C, vitamin A, vitamin E, catechins, quercetin, and ellagic acid all which help strengthen and protect the immune system.
- Supports immune system health, general health and wellbeing
- Reduces the severity and duration of common cold & flu symptoms

Effervescent Tablets Features & Benefits

- Wide range of natural flavours & colours with your preferred sweeteners
- Effervescent tablets produce a nice fizzy flavour and are pleasant to drink often resulting in compliance or repeat usage
- A great dosage form for people who find oral tablets difficult to swallow (dysphagia)
- Popular with kids, adults and seniors
- Effervescent tablets have already started dissolving by the time they reach your stomach, meaning they can be absorbed efficiently and are gentle on the stomach
- High dose of Active Ingredients is possible due to large tablet sizes

* These claims are general in nature and have not been assessed according to specific regulatory requirements.
