

# Vitamin C + Zinc

**ORANGE or BLACKCURRENT  
or PASSIONFRUIT FLAVOUR**  
EFFERVESCENT TABLETS

*Take daily to support immune system health and reduce the severity and duration of common cold symptoms.*

## Potential Claims\*

- Vitamin C and Zinc are antioxidants and help reduce free radicals formed in the body
- Supports immune system health, general health and wellbeing
- Reduces the severity and duration of common cold symptoms

## Effervescent Tablets Features & Benefits

- Wide range of natural flavours & colours with your preferred sweeteners
- Effervescent tablets produce a nice fizzy flavour and are pleasant to drink often resulting in compliance or repeat usage
- A great dosage form for people who find oral tablets difficult to swallow (dysphagia)
- Popular with kids, adults and seniors
- Effervescent tablets have already started dissolving by the time they reach your stomach, meaning they can be absorbed efficiently and are gentle on the stomach
- High dose of Active Ingredients is possible due to large tablet sizes
