

Vitamin C for Kids

ORANGE FLAVOUR
EFFERVESCENT TABLETS

Suitable for children to take daily to boost their immune system health and reduce the severity and duration of common cold symptoms.

Potential Claims*

- Maintains vitamin C levels in the body and supports immune system health
- Reduces the severity and duration of common cold symptoms

Effervescent Tablets Features & Benefits

- Wide range of natural flavours & colours with your preferred sweeteners
- Effervescent tablets produce a nice fizzy flavour and are pleasant to drink often resulting in compliance or repeat usage
- A great dosage form for people who find oral tablets difficult to swallow (dysphagia)
- Popular with kids, adults and seniors
- Effervescent tablets have already started dissolving by the time they reach your stomach, meaning they can be absorbed efficiently and are gentle on the stomach
- High dose of Active Ingredients is possible due to large tablet sizes

* These claims are general in nature and have not been assessed according to specific regulatory requirements.
