Empowering Brands, Crafting Excellence

Your Partner in Vitamin and Supplement Innovations

Thank you for your interest in AWS360's expanding and exciting range of vitamin and supplement products ready for your brand. Our dedicated team are ready to help you navigate the numerous new product development possibilities.

Every product is manufactured in GMP-certified manufacturing facilities at various factory locations including Germany, Norway, Canada and Australia.

Building from our strong base in effervescent tablet product development and manufacturing, AWS360 now offers 11 unique vitamin and supplement dosage forms with a variety of packaging solutions to build you an off-the-shelf or fully customised product.

Please be sure to check out ConCordix® Smart Chews – proprietary technology from our partner Vitux – which are disrupting the gummy, softgel and chewable categories with a truly innovative range of proven product concepts that consumers LOVE!

We now offer a comprehensive Product Marketing Support service to support your brand and marketing teams with content creation and execution including Product Features & Benefits, Consumer FAQs, How to Use Guides, Packaging Design, Point-of-Sale and more.

AWS360's mission is to "enable our knowledgeable and passionate team to provide exceptional 360° services that support brands to market successful consumer healthcare products."

It is my hope that our comprehensive range of vitamin and supplement product and service solutions assist you and your teams to do just that!

Your success is our success.

Good Health!

*Adam Bell
Chief Executive Officer*

Our Vision is to be at the forefront of consumer healthcare innovations that support a healthier and happier society.

Our Mission is to enable our knowledgeable and passionate team to provide exceptional 360° services that support brands to market successful consumer healthcare products.

AWS360 is dedicated to providing comprehensive product development and contract manufacturing solutions for vitamin and supplement brands. We understand the importance of health and wellness in today's fast-paced world.

At our core, we believe in crafting excellence. Combining over 25 years' experience and expertise in product development and innovation, contract manufacturing, regulatory affairs, and logistics we aim to assist brands create innovative and effective vitamin and supplement solutions.

We bring a proactive mindset to understand your unique needs and goals, ensuring that every product we develop meets your specifications and exceeds your expectations.

As your trusted partner in vitamin and supplement innovations, AWS360 offers comprehensive 360° tailored to meet the diverse needs of our customers. From new product development to regulatory affairs to manufacturing to logistics to marketing to innovation and back again, we provide end-to-end solutions with an underlying objective to support your brand's success.

With a customer base right around the Asia Pacific region we fully support regulatory

requirements with accurate documentation, stability data and testing, and packaging solutions for hot and humid climates.

Our global logistics services enable us to provide door-to-door freight services to wherever you require your product delivered.

Our manufacturing affiliates in Germany, Norway, Canada and Australia offer state-of-the-art GMP-certified facilities and strict quality control measures to ensure that every product we manufacture is safe, reliable, and of the highest quality.

With our expertise and commitment to excellence, we aim to be a go-to resource for vitamin and supplement brands seeking reliable and efficient new product development and contract manufacturing services. We pride ourselves on delivering exceptional customer service, timely delivery, and competitive pricing to help our clients succeed in the ever-growing but extremely competitive vitamin and supplement industry.

Choose AWS360 as your partner, and together we can make a positive impact on people's lives by delivering exceptional vitamin and supplement products that promote health, vitality, and well-being.

Introducing a game-changing delivery system disrupting the gummy, softgel and chewable categories.

ConCordix Smart Chews[®]

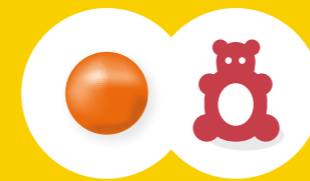

Original Norwegian Innovation brought to you by the experts at Vitux

AWS360 is proud to be the official Asia Pacific Partner for ConCordix Smart Chews, a patented technology from our friends at Vitux in Norway. ConCordix Smart Chews are an innovative chewable dosage form available with a gelatine or pectin base.

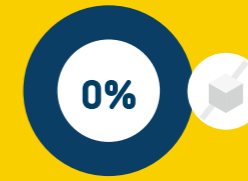

Supplementation the way Mother Nature intended.

ConCordix Smart Chews are the result of more than 10 years of exploration by our scientists to reinvent supplementation. They have removed the barriers of supplementation through a unique technology designed to mirror the structure of food.

ConCordix Smart Chews are the most natural way to deliver nutrients, next to food.

ConCordix v.s. gummies
ConCordix Smart Chews are great tasting and come in fresh, fruity flavors without sugar.

Zero sugar
As opposed to a national gummy brand containing high amounts of sugars, Smart Chews contain no sugars.

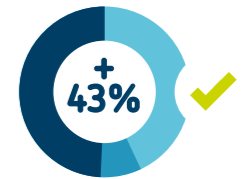

High Potency
Compared to a national gummy brand delivering 25 mg of Omega-3, ConCordix delivers 10x that amount in one Smart Chew.

ConCordix v.s. soft gels
ConCordix Smart Chews are easy to swallow, have no fishy after taste and cause no reflux.

High Payloads
Compared to a standard double strength fish oil soft gel, ConCordix matches in Omega-3 delivery.

Enhanced absorption
Research indicates Smart Chews deliver EPA & DHA more effectively to our blood, in the range of 43-51% versus conventional soft gels.

Unsurpassed Stability
Packaged to 100% protect nutrients, ConCordix is highly stable and hygienic.

We offer a growing number of off-the-shelf product concepts ready to be packaged in your brand. With product concepts spanning Omega-3, Immune Health, Bone Health, Heart Health, Childrens Health, Eye Health and more we can help find a solution for your next new and innovative product launch.

- Magnesium contributes to the maintenance of normal bones and teeth and has a role in the process of cell division.

Standard Flavour: Cranberry

Total Dosage per Tablet	
Biotin	150µg
Vitamin E	12mg α-TE
Magnesium	25mg
Cranberry Extract	100mg
Coenzyme Q10	1.0mg

Biotin Tablets

The cause of hair loss, thin, brittle hair and nails as well as skin problems can be a lack of biotin.

Biotin – also known as Vitamin H – is involved as a coenzyme in protein metabolism. Activating key enzymes are responsible for the formation of keratin.

Biotin can only be stored in small amounts by the body and should therefore be regularly included in the diet. Regular intake of biotin can contribute to fuller hair, firmer, more durable nails and healthy skin.

Total Dosage per Tablet	
Biotin	5mg

Collagen Active Capsules

The clinically proven ingredient BioCell Collagen® contains hydrolysed Collagen, Hyaluronic Acid and Chondroitin. Copper contributes to the maintenance of normal connective tissue and normal skin pigmentation.

Selenium helps to protect cells against oxidative stress which can be caused by free radicals. Free radicals can be caused by UV radiations, stress and environmental factors. These reactive molecules can damage the cells of the body and lead to premature aging.

Biotin, the “beauty vitamin” and vitamin A support the healthy skin function.

Total Dosage per 2 Capsules	
Biocell Collagen 500 mg of which: – Collagen 300 mg – Hyaluronic acid 50 mg – Chondroitin sulphate 100 mg	500mg
Coenzyme Q10	1000µg
Vitamin A	800µg
Biotin	100µg
Copper	1000µg
Selenium	110µg
Zinc	10mg

Hair Activator

Capsules

Hair Activator capsules contain extracts of Golden Millet, grape seed and green tea and are enriched with amino acids. Selenium helps to maintain a healthy hair structure. The trace element zinc and the "beauty vitamin" Biotin support the maintenance of normal, healthy hair.

In addition, zinc has a function in cell division and contributes to a normal testosterone levels in the blood. Copper contributes to the normal hair pigmentation.

Total Dosage per Capsule	
Green tea extract	50mg
Grape seed extract	20mg
Golden millet extract	30mg
Copper	500µg
Selenium	55µg
Zinc	10mg
Biotin	50µg
Vitamin E	12mg
Vitamin C	40mg
L-Cysteine	75mg
L-Methionine	75mg
L-Arginine	100mg

Silica & Biotin

Capsules

Silica contains a high proportion of natural silicon compounds. The trace element silicon aids the growth of skin, hair and nails. It is involved in the synthesis of collagen and is important for the healthy structure and firmness of connective tissue.

Total Dosage per Capsule	
Silica	500mg
Biotin	350µg
Zinc	5mg
Calcium	120mg
Vitamin D3	5µg

Hair, Skin & Nails Zinc Vital

Capsules

Hair, Skin & Nails Plus is a balanced combination of nutrients important for the growth of skin, hair and nails and contributes to a vital, fresh radiance.

Total Dosage per Capsule	
Niacin (NE)	18.0mg

Vitamin B1	1.4mg
Folic acid	200µg
Biotin	150µg
Vitamin B12	1µg

Bone Health Fastmelts

Orally Disintegrating Granules

Calcium, vitamin D3 and vitamin K1 contribute to the maintenance of normal bone.

Vitamin C contributes to normal collagen formation for the normal function of cartilage

Standard Flavour: Raspberry

Total Dosage per Stick	
Calcium	200mg
Vitamin C	40mg
Vitamin D	3.5µg
Vitamin K1	75µg

Vitamin D3 + K2

Tablets

Support your maintenance of normal bones with our easy-to-swallow tablets enriched with vitamin D3 and vitamin K2. Vitamin D helps to reduce the risk of falling associated with postural instability and muscle weakness.

Falling is a risk factor for bone fractures among men and women 60 years of age and older. Vitamin D contributes to normal absorption/utilisation of calcium and phosphorus.

Total Dosage per Tablet	
Vitamin D3	125µg
Vitamin K2	200µg

Calcium + Magnesium + Vitamin D3

Chewable Tablets

Strengthen your bones with our convenient chewable tablets enriched with calcium, magnesium, and vitamin D.

Specifically designed to support bone health, our product promotes strong and healthy bones.

Standard Flavour: Orange

Total Dosage per Tablet	
Calcium	200mg
Magnesium	100mg
Vitamin D3	2.5µg

Calcium + Magnesium + Vitamin D3

Effervescent Tablets

Take daily to support calcium absorption in bones, vitamin D3 levels in the body and helps maintain bone mineralisation and strength.

Standard Flavour: Grapefruit

Total Dosage per Tablet	
Calcium (as Calcium Carbonate)	500mg
Magnesium (as Magnesium Oxide)	150mg
Vitamin D3 (as Colecalciferol)	5µg (200IU)

Calcium + Vitamin D3

Effervescent Tablets

Take daily to support calcium absorption in bones, vitamin D3 levels in the body and helps maintain bone mineralisation and strength.

Standard Flavour: Grapefruit

Total Dosage per Tablet	
Calcium (as Calcium Carbonate)	920mg
Calcium (as Tricalcium Phosphate)	80mg
Total Calcium per tablet	1000mg
Vitamin D3 (as Colecalciferol)	880IU

Calcium + Vitamin K2 + D3

Effervescent Tablets

A strong combination for normal bone preservation: calcium, vitamin D3 and vitamin K2

- Calcium is needed for the maintenance of normal bones.
- Calcium and vitamin D help to reduce the loss of bone mineral in post-menopausal women. Low bone mineral density is a risk factor for osteoporotic bone fractures.
- Vitamin K contributes to the maintenance of normal bones.

Standard Flavour: Orange

Total Dosage per Tablet	
Calcium	600mg
Vitamin K2	45µg
Vitamin D3	25µg

Calcium 1000 + D3
Effervescent Tablets

Calcium is quantitatively the most important mineral in the human organism.

The body stock is about one kilogram. About 99 percent of it is bound in the skeleton (and enamel) and ensures the strength and stability of these tissues.

This is why calcium is often referred to as a "bone mineral".

Standard Flavour: Orange

Total Dosage per Tablet	
Calcium	1000mg
Vitamin D3	5ug

Glucosamine 1500
Effervescent Tablets

Take daily to relieve symptoms of mild osteoarthritis including mild joint aches and pains, help maintain joint mobility and flexibility. It also supports healthy joint cartilage growth and maintains joint health.

Standard Flavour: Lemon

Total Dosage per Tablet	
Glucosamine (as Glucosamine Sulfate Potassium Chloride)	1500mg

Glucosamine + Chondroitin + MSM

Effervescent Tablets

Take daily to relieve symptoms of mild osteoarthritis including mild joint stiffness, aches and pains. Also helps maintain joint mobility and flexibility, supports healthy joint cartilage production and maintains joint health.

Standard Flavour: Lemon

Total Dosage per Tablet	
Glucosamine (as Glucosamine Sulfate Potassium Chloride)	750mg
Chondroitin (as Chondroitin Sulphate Sodium)	600mg
MSM (as Methylsulfonylmethane)	300mg

Glucosamine 1200 Plus Capsules

Glucosamine 1200 Plus contains a selected combination of important nutrients. Glucosamine and chondroitin are components of the cartilage and connective tissue in the joints.

Vitamin C contributes to normal collagen formation for normal cartilage and bone function. Vitamins E and C help to protect the cell components from oxidative stress.

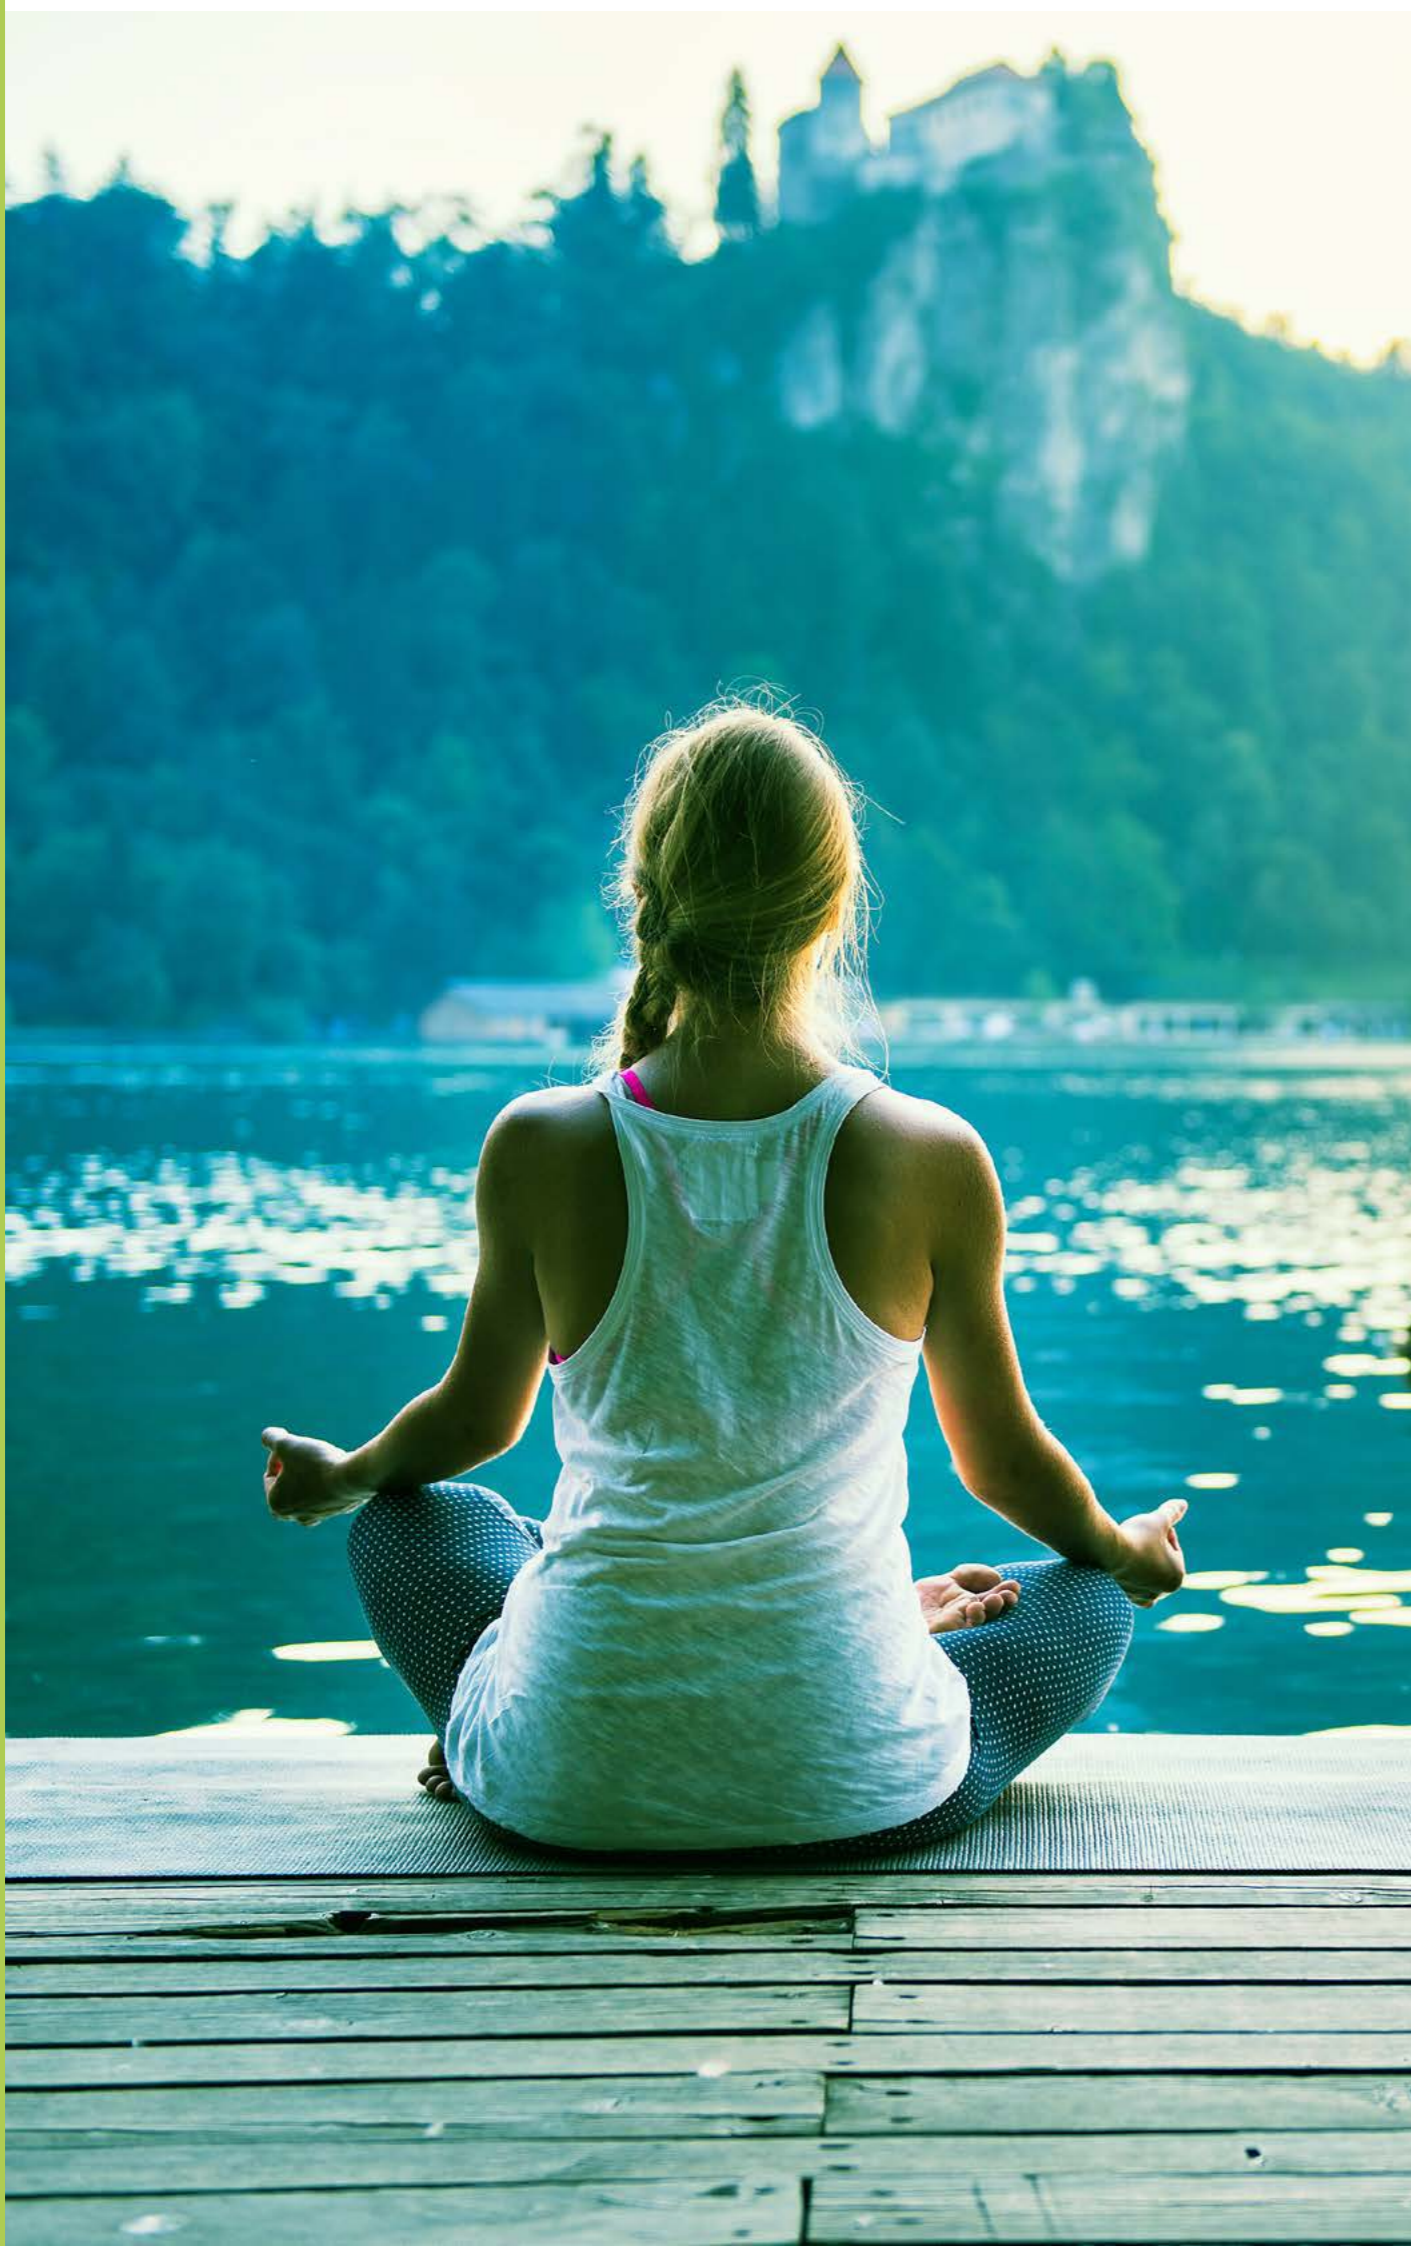

Total Dosage per Capsule	
Glucosamine sulphate	1200mg
Chondroitin sulphate	100mg
Vitamin C	100mg
Vitamin E	12mg
Vitamin D3	5µg

Joint Support Capsules

Joint Support capsules are a high-quality nutritional supplement, which leads due to the integral parts of Glucosamine and Chondroitine as well as the combination of Vitamin C and E to a healthy bone and cartilage system in the human body.

Total Dosage per Capsule	
Glucosamine sulphate	350mg
Chondroitin sulphate	40mg
Vitamin C	80mg
Vitamin E	12mg
Vitamin B6	1.4mg
Selenium	27.5µg

Magnesium	200mg

Electrolytes

Effervescent Tablets

Tasty and refreshing sports drink during and after endurance training – magnesium is a mineral that contributes to electrolyte balance and normal muscle function.

Standard Flavours: Orange, Lemon

Total Dosage per Tablet	
Chloride	180mg
Potassium	70mg
Sodium	300mg
Magnesium	120mg

Electrolytes

Soluble or Effervescent Granules

In hot weather it is important that the body is supplied with sufficient fluids and minerals – whether during sports, on the Work or school.

However, as important minerals are quickly sweated out and are not produced by the body itself.

They have to be replenished with an electrolyte drink. The electrolyte drinking granules contains an optimal electrolyte concentration and tastes naturally delicious like orange – the ideal nutrient supply.

Standard Flavour: Orange

Total Dosage per Serve	
Sodium	350mg
Potassium	175mg
Magnesium	80mg
Calcium	40mg
Chloride	100mg

Energy + Metabolism

Soluble or Effervescent Powder

Vitamin B12 contributes to the normal red blood cell formation and supports with vitamin C and magnesium the normal energy metabolism.

Magnesium is a mineral that contributes to electrolyte balance and normal muscle function.

Standard Flavour: Lime

Total Dosage per Sachet	
Magnesium	375mg
Vitamin C	80mg
Vitamin B12	2,50µg

Flavour Powder

Soluble Powder

Experience maximum flavour with minimal calories, whether you choose dairy or non-dairy products, with our irresistible flavour granules. Designed to enhance the taste of milk, yogurt, quark, and a variety of non-dairy alternatives, our low-calorie formula delivers a burst of deliciousness to your favorite treats. Elevate your sports nutrition and savor every moment with our trusted product, crafted to satisfy your taste buds without compromising your health goals.

Standard Flavours: Strawberry, Vanilla, Chccolate, Hazelnut, Nougat

Intensive BCAA

Soluble Granules

Perfect for all sports and training goals.

We suggest to mix 15g in a glass of water (500ml) before, during or after training. 2:1:1 ratio of leucine, isoleucine and valine.

- Magnesium contributes to normal protein synthesis
- Vitamin B6 contributes to normal protein and glycogen metabolism.

Standard Flavour: Berry

Total Dosage per Serve	
BCAA (1840-2160mg L-leucine, 880-1080mg L-isoleucine, 880-1080mg L-valine)	4000mg
Magnesium	187.5mg
Vitamin B6	1.4mg

Intensive L-Citrulline & L-Arginine

Effervescent Tablets

This product is a power booster for the muscle pump. Arginine develops its effect immediately. Citrulline is transformed into arginine in the body with a time delay and ensures that the arginine level in the blood remains high for longer.

- Magnesium contributes to normal muscle function
- Zinc contributes to normal protein synthesis and to normal macronutrient metabolism
- Selenium contributes to the protection of cells from oxidative stress
- Vitamin C and vitamin B2 contributes to normal energy-yielding metabolism
- Vitamin B6 contributes to normal protein and glycogen metabolism
- Vitamin B12 contributes to normal homocysteine metabolism and to the reduction of tiredness and fatigue
- Folate contributes to normal amino acid synthesis.

Standard Flavour: Lemon

Total Dosage per Tablet

L-Arginine	3000mg
L-Citrulline	1000mg
L-Tyrosine	100mg
Fenugreek extract	75mg
Taurine	50mg
Magnesium	50mg
Zinc	10mg
Selenium	27.5µg
Vitamin C	80mg
Vitamin B2	0.8mg
Vitamin B6	1.4mg
Vitamin B12	2.5µg
Folic acid	200µg

Isotonic Electrolytes Plus Effervescent Tablets

Drink during times of exercise, heavy sweating and heat and excessive exercise at work to help restore body electrolytes lost. When thirsty or exhibiting signs of dehydration sip slowly and frequently whilst symptoms of dehydration persist.

Artichoke

Effervescent Tablets

Artichoke effervescent tablets stimulate the natural formation of bile, thus assisting the digestion of dietary fat. The bitters contained in artichokes aid digestion and are beneficial to the stomach, liver and gallbladder.

Standard Flavour: Tropical

Total Dosage per Tablet	
Artichoke extract	170mg
Vitamin C	60mg
Vitamin E (α-TE)	10mg
Vitamin B6	2mg
Vitamin B2	1.6mg
Vitamin B1	1.4mg
Vitamin B12	1.0µg

Artichoke

Lozenges

Hustle and bustle, little movement as well as rich and fatty foods can stress the digestive system and affect the general well-being.

The inserted artichoke extract corresponds to an amount of 5,000mg of fresh artichoke in only one lozenge. The artichoke is native to the Mediterranean region and not only in the Mediterranean cuisine often used because of the bitter substances contained. Calcium supports normal function of the digestive enzymes.

Total Dosage per Lozenge	
Artichoke extract	272mg
Calcium	120mg

Immune Drops

Effervescent Drops

Give your water a flavor and vitamin boost with our effervescent drops!

Our refreshing and convenient Drops are the perfect solution for enhancing your water-drinking experience. These innovative drops are designed to add a burst of flavor and essential vitamins to your everyday hydration routine.

Simply put one drops into a glass or bottle of water, and watch as it transforms into a delightful beverage.

Standard Flavour: Tropical

Total Dosage per Drop	
Vitamin C	12mg
Zinc	1.5mg
Selenium	8.25µg

Relax Drops

Effervescent Drops

Give your water a flavor and vitamin boost with our effervescent drops!

Our refreshing and convenient Drops are the perfect solution for enhancing your water-drinking experience. These innovative drops are designed to add a burst of flavor and essential vitamins to your everyday hydration routine.

Simply put one drops into a glass or bottle of water, and watch as it transforms into a delightful beverage.

Standard Flavours: Elderflower/Mint

Total Dosage per Drop	
Vitamin B1	0.22mg
Vitamin B6	0.21mg
Biotin	7.5µg
Pantothenic acid	0.9mg
Magnesium	56.25mg

Ginkgo Biloba

Effervescent Tablets

Ginkgo biloba is one of the eldest and multifunctional plants of the earth. It has been applied for the support of the brain and nerves for many generations. An improved blood flow as well as a better oxygen saturation activate body and mind and the concentrative-ness up to an old age.

Total Dosage per Tablet	
Ginkgo Biloba	3000mg

Good Night's Sleep

Effervescent Tablets

Experience restful nights with our Good Night effervescent tablets infused with melatonin and lemon balm extract. Carefully formulated to promote relaxation and support a better sleep, our blend helps you unwind and achieve a peaceful slumber.

Embrace the rejuvenating power of a good sleep and wake up feeling refreshed and revitalized.

Standard Flavour: Blueberry/Lavender

Total Dosage per Tablet	
Melatonin	1.5mg
Potassium	300mg
Lemon balm extract	20mg
Vitamin B6	2.8mg

Vitamin C	80mg
Glycine	500mg

Iron Plus Effervescent Tablets

One effervescent tablet provides 100% of the reference value for iron, vitamin C, folic acid and vitamin B12.

- Iron contributes to the normal formation of red blood cells
- Vitamin C and vitamin B12 support normal energy metabolism, folic acid contributes to normal blood formation
- Vitamin C increases iron absorption.

Standard Flavour: Cherry

Total Dosage per Tablet	
Iron	14mg
Folic acid	200µg
Vitamin B12	2.5µg
Vitamin C	80mg

Iron + Vitamin C Effervescent Tablets

The trace element iron supports the formation of red blood corpuscles. As component of enzymes, iron is important for the body's energy metabolism. Vitamin C improves the assimilation of iron and aids one's powers of resistance.

Total Dosage per Tablet	
Vitamin C	75mg
Iron	14mg

Iron + Vitamin C Fastmelts Orally Disintegrating Granules

A different way to bring vitamins and minerals into the body.

High availability: In addition to its requirement for haemoglobin and red blood cell formation, iron is also needed to keep a healthy immune system and to pull energy out of the food.

- Vitamin C increases iron absorption
- Iron contributes to normal formation of red blood cells and haemoglobin and to normal oxygen transport in the body.

Standard Flavour: Pomegranate

Total Dosage per Stick	
Iron	14mg
Vitamin C	80mg

Liver Function Effervescent Tablets

When we detox our body, we actually detox our Liver.

Obesity and an increase in Cholesterol result in the deposition of fat on the liver called fatty liver. This reduces the ability of the liver to manage cholesterol and breakdown fat.

Standard Flavour: Peach

Total Dosage per Tablet	
Calcium	200mg
Choline	82.5mg
Chromium	40µg
Vitamin E	12mg (α-TE)
Vitamin B2	1.4mg
Vitamin B6	1.4mg
Vitamin B12	2.5µg

Lactase Tablets

Lactase tablets allow lactose-intolerant people the stress-free consumption of milk sugar containing foods. Just one tablet prior to a meal is sufficient due to the highly dosed formulation.

Total Dosage per Tablet	
Lactase	3.000 (FCC)

Magnesium Effervescent Tablets

The body cannot produce magnesium itself and is therefore dependent on a regular supply.

- Magnesium contributes to electrolyte balance and to normal protein synthesis
- Magnesium contributes to normal energy-yielding metabolism and contributes to normal functioning of the nervous system
- Magnesium contributes to normal muscle function.

Standard Flavours: Orange, Peach

Total Dosage per Tablet	
Magnesium	200mg

Multivitamin & Minerals

Total Dosage per Softgel

Omega-3 fatty acids – thereof Docosahexaenoic acid (DHA)160 mg – thereof Eicosapentaenoic acid (EPA)112 mg	386mg
--	-------

Greens Plus Effervescent Tablets

Support your maintenance of normal bones with our easy-to-swallow tablets enriched with vitamin D3 and vitamin K2. Vitamin D helps to reduce the risk of falling associated with postural instability and muscle weakness. Falling is a risk factor for bone fractures among men and women 60 years of age and older. Vitamin D contributes to normal absorption/utilisation of calcium and phosphorus.
